Articles that could represent a danger for the participant himself or for other people are not allowed to be carried along when entering the climbing park (for example jewellery, mobile phones, cameras, etc....)

## 3. Borrowed equipment/platforms

The borrowed equipment (belt, safety line with carabiners) must be used under the instructions of the organizer. It is not transferable to others, it is not allowed to doff it during the stay in the climbing park and it has to be returned 2 hours after the handing over. While climbing, the safety carabiners must be hooked into the safety line in opposite directions (from two sides). While relocating the line, one safety carabiner must always be hooked in. Both safety carabiners are not allowed to be hanged out. In case of doubt an organizer must be contacted. Every station may be entered by max. 1 person. Max. 3 persons may stay on the platforms at the same time.

#### **4. The following conditions apply for the use of the climbing park:**

An average physical fitness is presupposed. Children can participate from a grab height (stretched arm upward) of 1.20 m and at the age of five. Persons that are under the influence of alcohol or of other drugs are not entitled to enter the park. The grab heights for the courses are binding.

The max. weight is 100 kg.

#### **5. The closure of the Kletterpark Boltenhagen**

The management reserves itself the right to exclude participants from the park, if they do not observe the terms of use. The management also reserves itself the right to discontinue the service because of safety- related reasons (fire, storm, and thunderstorm). In this case, reimbursement of the admission price is not effected, except the participant has one hour left.

I read these rules carefully and I will consider them.
